

Project Design Phase-II

Data Flow Diagram & User Stories

Date	10 July 2026
Project Name	Strategic Product Placement Analysis
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

User Stories

Use the below table to define user stories for this project:

Activity	User Story (Top Priority)	Story (Enhancement)	Story (Later Release)
Explore Metrics	As Retail Manager, I want to view sales by placement zone so I can identify top-performing areas	As Data Analyst, I want drill-down filters by category so I can segment performance	As Marketing Lead, I want trend lines across weeks so I can track seasonality
Analyze Zones	As Visual Merch, I want heatmaps of traffic so I can optimize layout	As Retail Manager, I want to compare front- vs. back-store performance	As Executives, I want to flag low-performing zones and get alerts
Compare Placements	As Marketing Manager, I want to compare placement types (shelf vs endcap) so I can evaluate ROI	As Brand Strategist, I want time-series comparison of placements	As Data Analyst, I want benchmarking vs. last quarter
Export Insights	As Brand Strategist, I want exportable dashboard PDFs so I can present findings	As Retail Manager, I want annotated screenshots of charts	As Executive, I want email summary alerts of underperformance
Take Action	As Strategy Lead, I want recommendations for placement changes so I can drive layout updates	As Retail Manager, I want to model sales impact for repositioning	As Data Analyst, I want predictive placement modeling
